New England Mutual Life Ins.,

Of Boston, Mass., Chartered in 1843,

Capital and accumulation, \$650,000.

This Company is one of the oldest,

and among the most prudently and successfully conducted in the country. The primary object in conducting the business has been to provide perfect security under all conceivable circumstances for the payment of its losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.

Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessments beyond its premium.

The directors are required to be peculiarly interested in the company, and they give to their personal attention, and bonds of sufficient security are given by its officers for the faithful performance of their duties.

Insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of a husband's creditors; and creditors may insure the lives of debtors.

Highly Important to Farmers.

THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST.

LOCATED AT MADISON, WISCONSIN.

This Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, belonging to farmers, household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no loss except your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops and such like property. In this company all such property is rejected positively, by limiting them alone.

Farmers, look to your own interest, and insure in a Farmers' Company.

I have been doing business a little over three years, and we have not had a loss to exceed our premium notes, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the company.

New England Mutual Life Ins.,
Of Boston, Mass., Chartered in 1843,
Capital and accumulation, \$650,000.

This Company is one of the oldest, and among the most prudently and successfully conducted in the country. The primary object in conducting its business has been to provide perfect security under all conceivable circumstances, for the payment of its losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.

Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessments beyond his premium. The directors are required to be peculiarly interested in the company, and they give it their personal attention; and bonds of sufficient security are given by its officers for the faithful performance of their duties. Insurance may be effected for the benefit of the wife, a husband's creditors; and creditors may insure the lives of debtors.

Highly Important to Farmers.
THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST,
LOCATED AT MADISON, WISCONSIN.

THIS COMPANY continues to take risks upon Farm Property only, consisting of buildings of all kinds, belonging to farmers, household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible companies. All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no loss, unless your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops and such like property. In this company all such property is rejected positively, by LETTING THEM ALONE.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the company.

Highly Important to Farmers.
THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST.

THE MADISON MUTUAL,
LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers), household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently they will have no losses other than their own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, barns, mills, shops and such like property. In this company all such property is rejected positively, by LETTING THEM ALONE.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the company.

A GOOD IDEA.—Arrangements have been made at the academy in this city, for a regular course of evening lectures from different individuals, upon scientific and educational subjects, and since this has been determined upon, it has been suggested that a small admission fee be asked, and the proceeds thereof be expended in the purchase of philosophical and chemical apparatus for the use of the institute. The idea is a capital one, and we heartily hope it will succeed. The lectures will undoubtedly be of an entertaining and instructive character; such as both to interest and profit the hearer, and those who attend them, besides the advantage they themselves receive, will be lending countenance to the cause of education, and contributing to its advancement.

Geo. S. Dodge, Esq., delivers the first lecture, Monday evening, and we hope to see a full attendance.

The Merchants' Bank, Burlington, has not failed, as Thompson's Bank Note Reporter has announced. The same paper has, in several instances lately, given out erroneous reports, to the great alarm and detriment of bill holders. The public will very soon lose all confidence in the statements of a journal whose reports appear to be based upon insufficient evidence, or induced by motives not at all creditable. —*Albany Journal.*

We believe Thompson's Reporter is fast losing public confidence. Not long since it published that on such a day and hour the Erie and Kalamazoo Railroad bank failed. We have never had as much faith, of course, in banks established like that, as in those that give full security to the bill holder, but its standing never has been better than during the present season. Mr. Thompson's statement to the contrary notwithstanding. The patronage of business men ought to be withdrawn from a paper so inaccurate, to characterize its conduct with no worse term.

Wyman Spooner, of Walworth county, is the whig-abolition-native-American-Maine-liquor-law-spirit-knocking candidate for congress in the 1st district. —*Sheboygan Journal.*

The editor who wrote the above notice may regard it as complimentary and argumentative and in any other favorable light, but we doubt whether it will have the effect he intended it should with any body possessing the first particle of candor. But considering the desperation to which the democratic organs are driven about these days, in view of the overwhelming defeat which so plainly awaits them, such miserable appeals are perhaps pardonable.

DANE COUNTY REPUBLICAN CONVENTION.—The mass convention of the republicans of Dane county, to nominate county officers, has been postponed till October 10th, to allow the farmers to attend the state fair. Mr. Washburne, the candidate for congress, will be present at the adjourned meeting.

SMITH'S INDUSTRY ARITHMETIC.—A notice of this work will be found in our advertising columns, to which we call the attention of teachers and others. Roswell C. Smith has done much in improving school books, and this is the first attempt to make the study of Arithmetic attractive to the young. It deserves the careful examination of teachers, at least, and we have no doubt but such examination will lead to its adoption.

John Frost, Esq., familiarly called Jack, paid his first visit to this place and the region round about, yesterday morning early, but "made tracks" soon after sun-rise. An earlier visit might have been unwelcome as well as hurtful, but at this season he has only entitled himself to the thanks of the boys for assistance rendered in the laudable business of pelting the hickory-nuts from the trees.

A Fire Company.

EDITORS GAZETTE:—We would suggest, through your columns, the propriety of forming a fire company in this city. Fortunately we have escaped the devastating ravages of fire for many years, but who knows how long this favorable state of things will last? The greatest amount of caution may be used, yet in the course of time fire will out, when, and where least expected. We all know how indispensable the fire companies are in the larger cities, and of their great protection to property and lives, and it behooves our city authorities to agitate this matter at once. The inhabitants will not object to being taxed the small item it will be to each, for the amount required to purchase an engine, and there are enough young men who will readily volunteer their services, and become members of the company.

A little public spirit is all that's required in the matter, and the people will arouse from their slumbers, and take one great step toward the welfare and protection of this city.

AN OBSERVER.

We are glad to give place to the above, because it is a subject that needs to be brought before the minds of our citizens often, until some action is taken in the matter. Just after the occurrence of the very few fires which have taken place here, there has been a rousing up on the subject, and one would naturally think there were to be half a dozen fire companies organized at once, with as many first class engines. But it takes only a few days for the excitement to die down, and the matter is then entirely dropped. Every day, property upon our principal streets is becoming more and more valuable; more costly buildings are being erected and more extensive stocks of goods are being placed in them, to say nothing of a much better class of dwelling houses. In just such proportion would a sweeping fire be the more calamitous, and when once well going in our large blocks, its extinguishment would be utterly impossible, without the aid of engines.—Must we have another lesson by sad experience, before any thing effective will be done? We cannot but regard the further neglect of this important matter, as exercising ill faith towards property holders, who, paying the expenses of a city corporation, have a right to claim exemption from any unnecessary hazard to which their property might be subjected by a lack of the proper administration of city affairs.

"THE BAKERS ARE COMING."—By reference to our advertising columns, it will be seen that a musical treat is in store for our citizens. The Bakers are old favorites, and none acquainted with them (and who is not?) will need urging to attend their agreeable entertainments. No company of vocalists ever received more flattering notices from the press, or a larger share of the public favor.

SUPERIOR TEAS.—A. K. Allen has a very superior quality of various kind of teas, put up in packages by the Canton tea company, to which we would direct the attention of those who desire a genuine, unadulterated article.—An application to him will elicit all the information necessary to a selection.

OYSTERS.—Wooliscroft treated his friends yesterday to the first supply of this kind of eating, and will hereafter be ready to serve his customers whenever the weather will admit. He has also made arrangements to keep all the delicacies or substantial the season demands and the market will afford.

MINERAL POINT REPUBLICAN CONVENTION.—We present the full proceedings of the republican congressional convention at Mineral Point. It will be seen the convention was harmonious throughout. The resolutions adopted are the same as those adopted at the Madison convention in July, with a single resolution added in reference to non-interference. We do not like the resolutions as well as those adopted by the Grant county mass meeting, believing the latter to represent also the average of public opinion in this section of the state better than the others. However, when we come to consider that similar resolutions to those of Madison have been adopted in all the eastern, middle and western states that have held conventions, as well as in most of the counties and congressional districts, we are reconciled,—uniformity being one of the main pillars of the noble edifice the people have undertaken to rear upon the old foundation. The adoption of resolutions having identical meaning with those of Madison, is not confined to any party; the state whig convention of Massachusetts, the hunker convention of New York, and the republican convention of Ohio, might be expected to represent the widest extremes, but they have already adopted resolutions meaning precisely the same as those of Madison.

We have no faith in platforms, however, and long ago renounced them. Men with good private characters, fair ability, and of well tried integrity are the best platforms ever invented. We know this is treacherous doctrine among politicians, but can't help it. Where's our Baltimore platform?

C. C. Washburne, the unanimous nominee of the convention, is just such a platform as we want. His public and private character, fidelity to the laws, scrupulous integrity and business reputation, are sufficient guarantees of his soundness. Those best acquainted with him, say he has long been right upon the questions most concerning the public mind. We do not remember of hearing that he ever was at the office crib before, or took an active part in the party stambles. Of his election we place it among the certainties, unless some manœuvre takes place that we are unable to foresee. —*Grant Co Herald.*

FOR FREEDOM.—Twenty fugitives from slavery left this city on Wednesday evening, on the underground railroad, for Canada and freedom. The stock of that corporation is rapidly rising in this market. —*Chicago Tribune.*

The Albany Register says mosquitoes love the blood of fresh beef far better than they do any that flows in the veins of the human kind. Just put a couple of generous pieces on plates near your bed at night, and you will sleep untroubled by these pests. In the morning you will find them full and stupid with beef blood, and the meat soaked as dry as cork.

POLITICIANS CORNERED.—Twenty months ago the political sky was fair, only a little rosy red here and there. Pierce and the democracy had made a clean sweep and human foresight could see nothing in the way to prevent a four years voyage,—or perhaps, a voyage of equal duration, of Sir John Franklin. What of those seekers we had among the whigs had foresight, or were about to do so, as rats do an empty barn, and went over to the democracy.—We let them go without a tear as kind mothers would their romping girls when offering them on the matrimonial altar, well knowing they'd come to their mill.

There they stand now by themselves,—afraid to acknowledge the administration, afraid to define their own positions before the public! linked to that old stock of adamantine whigs acknowledge no civil or religious institutions but *religion and riggers*, they begin to thirst for better company!

Such is the state of public opinion now against these politicians, to be seen, and identified in every corner of the state of Wisconsin, that their chances for office are most hopeless; people have sworn to support no standing candidates, such as we have described; they are recognized as doughfaces and are held at a frightful rate of discount.

How anomalous the political sky! About all the office-seekers of the old parties, whigs and democrats, together standing solitary and alone,—the people having embarked in a different vessel, determined to steer their own boat,—a mountain separating the buccaniers from the captives who have struck for freedom, and not even a tear shed at the parting. —*Grant Co Herald.*

ACTION AND REACTION.—The public mind has recently made a big leap upon the slavery question; or rather, we should say, people have lately the boldness to come out and act what has been in their souls a dozen years. Some say the leap is a dangerous one; monarchists and tyrants never admired popular progress by leaps. Louis Napoleon dreads it—no doubt he dreams of bull-fights. Many round have the hysterics about the dangerous leaps of their opponents; having driven us to the verge of the precipice, where, to walk slowly and submissively onward is slavery, dark as night in Egypt, they quickly halt, wheel and beat the Rogue's Revellie, while we charge upon them to the tune of Yankee Doodle!

Well, do you think we are ever to be forced near that precipice again! No sir, by the ill-fated Sun Path.

It will be remembered that in 1850, it took all the dough faces in the north, the fire-eaters of the south, and a battalion of New York, Boston and Philadelphia clergy to scare up a reaction of sufficient magnitude to sustain the fugitive slave law, and to reconcile the people to the defeat of the Wilmot proviso principle. After a powerful effort, with the aid of the general government, peace was restored by smooth-tongued, non-convincing, public feeling. Since then new grievances have taken place, while the old sore never was healed. The anti-slavery extension or liberty-loving sentiment of the nation has progressed immensely, and was ready to burst out long before Douglas and Pierce turned traitors to their former faith and pledges.

Well then, what is to be the extent of the reaction preached by a combination of demagogues, dough faces and doggerly fortune tellers? We answer, the public mind may, probably will recede somewhat, but never will the back-action be sufficient to endorse the fugitive slave law or any further progress of the slave power. The principle of the Wilmot proviso is as firmly riveted on this nation now and henceforth, as liberty is sealed in fate. All are aware of the bare possibility to enforce the fugitive slave law over since its adoption; has not the public mind progressed immensely of late, and is its doom less sealed than the positive endorsement of the other?

The proviso principle and an essential modification of the fugitive slave law are the material points now contended for. If public sentiment has advanced equal to five degrees in a circle, we believe the points will be won, notwithstanding any reaction probable, or that the dough-faces may manufacture to order.

We know very well that the cry of disunion, threats of civil war, yells of demagogues for "peace and submission," and a thousand little cunning tricks will be resorted to for effect in producing a reaction; that cowards will submit, sham patriots whine and falter, and that all the revenue artillery of the federal government is to be let off in a broadside to get up a reaction—restore to submission and then annex Cuba, erect a negro state in part of California, and re-open the slave trade, according to the present design.

To know of danger is to be prepared for it, and be able for the combat. We foresee the popular back-action works erecting for the future, but we shall be able to spare all from our ranks that the sham democracy are able to get, and then beat them as our fathers did Great Britain and the Tories combined.—*Id.*

NOT UP TO THE TIMES.—Some years since, a gentleman, a native of Concord, N. H., resident in Burlington, Iowa, received a letter from an old acquaintance, a young lawyer in New Hampshire, inquiring what the gentleman's views were of the feasibility for success in removing to Iowa, and there engaging in the practice of his profession. The gentleman replied to him, that he thought he would do as well to remain where he was; at the same time telling his neighbors in Burlington that he did not think the lawyer equal to the practice of the country. The lawyer's name was Franklin Pierce, now president of the United States. The gentleman's name, James W. Grimes, governor elect of the state of Iowa. —*Chicago Tribune.*

FOUL PLAY.—Sometime in the month of June last, a German of considerable property, by the name of Von Teizer, living at Theresa, in this county, suddenly disappeared from his residence, living alone, and leaving every thing about him just as if he had merely gone out on an errand. Nothing more has since been seen or heard of him. Soon after his disappearance a family living near commenced appropriating his property to their own use. A few days since, a garment supposed to belong to the missing man was found, which led to the suspicion that he had been murdered. The community immediately commenced searching, but nothing more has been found. There is no reasonable doubt but he has been murdered. The persons in whose possession his effects were found have been arrested, and are now in jail to an indictment for larceny. —*Horicon Argus.*

A man can be a man of education without being drilled through college. It is far better to know the men among whom one lives, than to know men who have been dead three thousand years. I am deficient in classic lore, I am pretty well booked up in the rascality of the age in which we live. It makes no odds how a man gets up to the roof of a house, whether he climbs up by a ladder, or goes up some other way. I would not barter away all the practical knowledge I have received in lumber and shipyard for all the Latin that was ever spoken in plain and expressive language, than speak nonsense in fifty. —*Mike Walsh.*

Paper collars for gentlemen are about coming into fashion. The know nothings have sworn off wearing any more Irish linen. —*Boston Atlas.*

THE THIRTY DAY BUILDING.—Mr. Mitchell has got his bank ready to enclose, and it may be that he will have his banking office in the old place in thirty days after the fire. One month will have expired on Thursday next, and before the fire was out, he said that he would be back again in thirty days.—*Wis.*

MADISON STONE.—We are gratified to learn that Henry J. Nazro & Co., have concluded to build the front of their massive store of Madison stone. This will be its first introduction here, and we believe that it is destined to be a favorite building stone. Mr. Nazro intends to have a store, which for its massiveness and appearance will be a species of state institution.—*Wisconsin.*

KNOW NOTHING.—We learn indirectly from a reliable source that a know nothing society has been established at Kenosha, and that it is altogether more flourishing than any other organization in the State. It is said that it embraces the larger number of its best men.—*Racine Advertiser.*

It has been hinted to us that the Germans in Burlington in this county, have organized a know nothing society. We have also been informed that some of our own citizens of English birth have been united with the order which the Democrat says is in existence in this city.—*Id.*

QUICK WORK.—G. W. Boon, of Greenville, in this county, had his corn crop harvested, and laid down to wheat in just 14 weeks from the time the corn was planted. We don't believe that many farmers can be found who are so industrious. —*Appleton Crescent.*

PIGEONS.—We never knew these birds so plenty, in this vicinity, as they are this season. Hundreds and possibly thousands have been bagged by sportsmen during the past week, and the slaughter still continues. —*Platteville American.*

SQUIRRELS.—The woods in this vicinity are fairly alive with black squirrels, and the boys are having rare sport hunting. Raccoons are also more abundant, and of course more mischievous, than at any time within the memory of "white men." Coon hunts—night parties—are not unfrequent. —*Appleton Crescent.*

Mr. Rogers planted corn in this town on the 4th of July. It was perfectly ripe and ready for the mill on the 5th of September. The corn crop is very heavy throughout the county.—*Id.*

A "free fight" among the New York "fancy" occurred on Thursday morning, in which Tom Hyer and Johnny Ling were the main actors.—A pistol was fired at the breast of Hyer, whose life was saved by a man named Lozier, throwing his arm before the muzzle of the weapon and receiving the ball in his arm. The affray grew out of an old grudge between the Hyer and Sullivan families.

MESSRS. FORTNERS.—There is at present considerable talk and gas expended in relation to the recent action of the citizens of Chicago in refusing to hear Mr. Douglas's defence. Now, I do not at all wish to be understood as sanctioning the action of the people of Chicago, in committing such an outrage. But I wish some of those loud-mouthed friends of Stephen Arnold Douglas would draw a comparison between the action of the bigots of Chicago, in refusing to hear Mr. Douglas, and that of the nullifiers—not in any city—but in the American congress, in refusing, and that upon a mere quibble, to hear Thomas H. Benton in opposition to the "Nebraska bill." Will some one favor us with a defence of the Nebraska men on that occasion? Yours, etc., ANTI-NEBRASKA. —*Potosi Republican.*

JOSIAH T. WRIGHT.

Janesville, July 5, 1854.

KIEFER'S ROCK OIL,

FROM A Well 400 feet deep, Near Pittsburgh,

Pa., is offered to the public as a Natural Medicine

for the cure of the most distressing diseases of the

Kentucky or American Oil, as this is known INFINITELY

as well as externally. As a local remedy in Paralysis,

Sciatica, Rheumatism, Dropsy, Loss of Sight, Burns, &c.

It is a valuable Remedy for Croup, Whooping Cough, Sore Throat, Diarrhea, Erysipelas, Old Sores, Eruptions

of the Skin, Female Diseases, Worms, Bladder and Kidneys, Bronchitis, Pains &c., &c. It is the Investigating Physician, as well as the suffering patient, to become acquainted with its merits.

Discovered in 1849, it has within 2 or 3 years, made

multitudes of cures, and multitudes of friends—and as

soon as tried the Sales not only increase but hold out.

It is offered to the family who will not be without it.

In the hands of the proprietor by certificates, letters, and in other ways.

It is the most scientific and convenient mode of applying the

oil, and is a most valuable remedy for all the diseases

we cannot fully tell. While it is both efficacious and

as a remedy, it is also a most valuable and a REGULA-

TOR. A leading principle in it is NATURE. When you

own have it in the family, it will do you no harm.

Full as the world is of Patent Medicines—it is thought

not best to suppress this, the work of NATURE—to

make room for Human Inventions. Price Fifty cents per

bottle, a child's bottle, and a bottle for the large cities

and towns in the West at Proprietor's prices.

HAVE WE AGUE AMONG US?—A tea spoonful

every three hours in the absence of the fever will cure

you of Ague or Diarrhea. 25¢ per bottle, Druggists,

and all friends of the afflicted will do well to recommend

this Oil for PROLAPSUS UTERI, and good will be done

—take the usual dose 2 or 3 times a day, and bathe the

lower part of the back with it. Have you SCORFUS?

Put a few drops of the oil on the affected part, and a

little coat or incense will be done. Get circulars of directions

for adults and children, gratis of the agents. A trial

is all we ask. Mind and get the right kind—it is of a

beautiful reddish color and clear. Try it for Wounds,

and all friends of the afflicted will do well to recommend

it. S. C. SMITH, Cary & Gordon, Beloit; W. W. Kneale,

Capital and accumulation, \$650,000.

THIS Company is one of the oldest, and among the most prudently and successfully conducted in the country. The primary object in conducting its business has been to provide for the security under all conceivable circumstances, for the payment of its losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.

Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessments beyond his premium.

The directors are required to be peculiarly interested in the company, and they give it their personal attention, and hence the most efficient security is given by its officers for the faithful performance of their duties.

Insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of a husband's creditors; and creditors may insure the lives of their debtors.

O. O. WASHBURN.
ROCK COUNTY REPUBLICAN CONVENTION.

The electors of Rock county who are determined to support no man for office who is not positively and fully committed to the support of the principles announced in the "Republican Platform" adopted at Madison on the 13th of July last, and whose personal character, political associations and private conduct, do not afford a guarantee that he is reliable, are invited to meet in their respective townships or wards at the place of holding the last township or ward election, on Tuesday, 10th day of October next, at 2 o'clock P. M. for the purpose of effecting a thorough organization of the Republican party in their towns or wards, and of appointing delegates to a county convention hereby called at the Court House in Janesville, on THURSDAY, the 12th day of October next, at 2 o'clock P. A GOOD IDEA.—Arrangements have been made at the academy in this city, for a regular course of evening lectures from different individuals, upon scientific and educational subjects, and since this has been determined upon, it has been suggested that a small admission fee be asked, and the proceeds thereof expended in the purchase of philosophical and chemical apparatus for the use of the institute. The idea is a capital one, and we heartily hope it will succeed. The lectures will undoubtedly be of an entertaining and instructive character; such as both to interest and profit the hearer, and those who attend them, besides the advantage they themselves receive, will be lending countenance to the cause of education, and contributing to its advancement.

Geo. S. Dodge, Esq., delivers the first lecture, Monday evening, and we hope to see a full attendance.

The Merchants' Bank, Burlington, has not failed, as Thompson's Bank Note Reporter has announced. The same paper has, in several instances lately, given out erroneous reports, to the great alarm and detriment of bill holders.—The public will very soon lose all confidence in the statements of a journal whose reports appear to be based upon insufficient evidence, or induced by motives not at all creditable.—*Albany Journal.*

We believe Thompson's Reporter is fast losing public confidence. Not long since it published that on such a day and hour the Erie and Kalamazoo Railroad bank failed. We have never had as much faith, of course, in banks established like that, as in those that give full security to the bill holder, but its standing never has been better than during the present season, Mr. Thompson's statement to the contrary notwithstanding. The patronage of business men ought to be withdrawn from a paper so inaccurate, to characterize its conduct with no worse term.

Wyman Spooner, of Walworth county, is the whig-splitting native-American-Maine-liquor-law-abolition-knocking candidate for congress in the 1st district.—*Sheboygan Journal.*

The editor who wrote the above notice may regard it as complimentary and argumentative and in any other favorable light, but we doubt whether it will have the effect he intended it should with any body possessing the first particle of candor. But considering the desperation to which the democratic organs are driven about these days, in view of the overwhelming defeat which so plainly awaits them, such miserable appeals are perhaps pardonable.

DANE COUNTY REPUBLICAN CONVENTION.—The mass convention of the republicans of Dane county, to nominate county officers, has been postponed till October 10th, to allow the farmers to attend the state fair. Mr. Washburne, the candidate for congress, will be present at the adjourned meeting.

SMITH'S INDUCTIVE ARITHMETIC.—A notice of this work will be found in our advertising columns, to which we call the attention of teachers and others. Roswell C. Smith has done much in improving school books, and this is the first attempt to make the study of Arithmetic attractive to the young. It deserves the careful examination of teachers, at least, and we have no doubt but such examination will lead to its adoption.

John Frost, Esq., familiarly called Jack, paid his first visit to this place and the region round about, yesterday morning early, but "maio tracks" soon after sun-rise. An earlier visit might have been unwelcome as well as hurtful, but at this season he has only entitled himself to the thanks of the boys for assistance rendered in the laudable business of pelting the hickory-nuts from the trees.

A Fire Company.

EDITORS GAZETTE:—We would suggest, thro' your columns, the propriety of forming a fire company in this city. Fortunately we have escaped the devastating ravages of fire for many years, but who knows how long this favorable state of things will last? The greatest amount of caution may be used, yet in the course of time fire will out, when, and where least expected. We all know how indispensable the fire companies are in the larger cities, and of their great protection to property and lives, and it behooves our city authorities to agitate this matter at once. The inhabitants will not object to being taxed the small item it will be to each, for the amount required to purchase an engine, and there are enough young men who will readily volunteer their services, and become members of the company.

A little public spirit is all that's required in the matter, and the people will mouse from their slumbers, and take one great step toward the welfare and protection of this city.

AN OBSERVER.

We are glad to give place to the above, because it is a subject that needs to be brought before the minds of our citizens often, until some action is taken in the matter. Just after the occurrence of the very few fires which have taken place here, there has been a rousing up on the subject, and one would naturally think there were to be half a dozen fire companies organized at once, with as many first class engines. But it takes only a few days for the excitement to die down, and the matter is then entirely dropped. Every day, property upon our principal streets is becoming more and more valuable; more costly buildings are being erected and more extensive stocks of goods are being placed in them, to say nothing of a much better class of dwelling houses. In just such proportion would a sweeping fire be the more calamitous, and when once well going in our large blocks, its extinguishment would be utterly impossible, without the aid of engines.—Must we have another lesson by sad experience, before any thing effective will be done? We cannot but regard the further neglect of this important matter, as exercising ill faith towards property holders, who, paying the expenses of a city corporation, have a right to claim exemption from any unnecessary hazard to which their property might be subjected by a lack of the proper administration of city affairs.

"THE BAKERS ARE COMING."—By reference to our advertising columns, it will be seen that a musical treat is in store for our citizens. The Bakers are old favorites, and none acquainted with them (and who is not?) will need urging to attend their agreeable entertainments. No company of vocalists ever received more flattering notices from the press, or a larger share of the public favor.

SUPERIOR TEAS.—A. K. Allen has a very superior quality of various kind of teas, put up in packages by the Canton tea company, to which we would direct the attention of those who desire a genuine, unadulterated article.—An application to him will elicit all the information necessary to a selection.

OYSTERS.—Woolfsoff treated his friends yesterday to the first supply of this kind of eating, and will hereafter be ready to serve his customers whenever the weather will admit. He has also made arrangements to keep all the delicacies or substantial the season demands and the market will afford.

MINERAL POINT REPUBLICAN CONVENTION.—We present the full proceedings of the republican congressional convention at Mineral Point. It will be seen the convention was harmonious throughout. The resolutions adopted are the same as those adopted at the Madison convention in July, with a single resolution added in reference to non-intervention. We do not like the resolutions as well as those adopted by the Grant county mass meeting, believing the latter to represent also the average of public opinion in this section of the state better than the others. However, when we come to consider that similar resolutions to those of Madison have been adopted in all the eastern, middle and western states that have held conventions, as well as in most of the counties and congressional districts, we are reconciled,—uniformity being one of the main pillars of the noble edifice the people have undertaken to rear upon the old foundation. The adoption of resolutions having identical meaning with those of Madison, is not confined to any party; the state whig convention of Massachusetts, the hunker convention of New York, and the republican convention of Ohio, might be expected to represent the widest extremes, but they have already adopted resolutions meaning precisely the same as those of Madison.

We have no faith in platforms, however, and long ago renounced them. Men with good private characters, fair ability, and of well tried integrity are the best platforms ever invented. We know this is treacherous doctrine among politicians, but can't help it. Where's our Baltimore platform?

C. C. Washburn, the unanimous nominee of the convention, is just such a platform as we want. His public and private character, fidelity to the laws, scrupulous integrity and business reputation, are sufficient guarantees of his soundness. Those best acquainted with him, say he has long been right upon the questions most concerning the public mind. We do not remember of hearing that he ever was at the office crib-bored, or took an active part in the party shambles. Of his election we place it among the certainties, unless some manuever takes place that we are unable to foresee.—*Grant Co Herald.*

FOR FREEDOM.—Twenty fugitives from slavery left this city on Wednesday evening, on the under ground railroad, for Canada and freedom. The stock of that corporation is rapidly rising in this market.—*Chicago Tribune.*

The Albany Register says mosquitoes love the blood of fresh beef far better than they do any that flows in the veins of the human kind. Just put a couple of generous pieces on plates near your bed at night, and you will sleep untroubled by these pests. In the morning you will find them full and stupid with beef blood, and the meat soaked as dry as cork.

Politicians Cornered.

Twenty months ago the political sky was fair, only a little rosy red here and there. Pierce and the democracy had made a clean sweep and human foresight could see nothing in the way to prevent a four years voyage,—or perhaps, a voyage of equal duration with that of Sir John Franklin. What office-seekers we had among the whigs had foreseen, or were about to do so, as rats do an empty barn, and went over to the democracy.—We let them go without a tear as kind mothers would their romping girls when offering them on the matrimonial altar, well knowing they'd come to their milk.

There they stand now by themselves,—afraid to acknowledge the administration, afraid to define their own positions before the public linked to that old stock of adamantine whigs who acknowledge no civil or religious institutions but *whiskey and niggers*, they begin to titter for better company!

Such is the state of public opinion now against these politicians, to be seen, and identified in every corner of the state of Wisconsin, that their chances for office are most hopeless; people have sworn to support no standing candidates, such as we have described; they are recognized as dough-faces and are held at a high rate of discount.

How anomalous the political sky! About all the office-seekers of the old parties, whigs and democrats, together standing solitary and alone,—the people having embarked in a different vessel, determined to steer their own boat,—a mountain separating the buccaniers from the captives who have struck for freedom, and not even a tarsheer at the parting.—*Grant Co Herald.*

ACTION AND REACTION.—The public mind has recently made a big leap upon the slavery question; or rather, we should say, people have lately the boldness to come out and act what has been in their souls a dozen years. Some say the leap is a dangerous one; monarchists and tyrants never admired popular progress by jumps. Louis Napoleon dreads it—no doubt he dreams of bull-fights. Many round have the hysterics about the dangerous leaps of their opponents; having driven us to the verge of the precipice, where, to walk slowly and submissively onward is slavery, dark as night in Egypt, they quickly halt, wheel and beat the Rogue's Revellie, while we charge upon them to the tune of Yankee Doodle!

Well, do you think we are ever to be forced near that precipice again! No sir, by the ill-fated Sam Patch.

It will be remembered that in 1850, it took all the dough faces in the north, the fire-eaters of the south, and a battalion of New York, Boston and Philadelphia clergy to secure up a reaction of sufficient magnitude to sustain the fugitive slave law, and to reconcile the people to the defeat of the Wilnot proviso principle. After a powerful effort, with the aid of the general government, peace was restored by smoothing, not convincing, public feeling. Since then new grievances having taken place, while the old sore never was healed. The anti-slavery extension or liberty-loving sentiment of the nation has progressed immensely, and was ready to burst out long before Douglas and Pierce turned traitors to their former faith and pledges.

Well then, what is to be the extent of the re-action, brought by a combination of demagogues, dough faces and doggy fortune tellers? We answer, the public mind may, probably will recede somewhat, but never will the back-action be sufficient to endorse the fugitive slave law or any further progress of the slave power. The principle of the Wilnot proviso is as firmly riveted on this nation now and henceforth, as liberty is sealed in fate. All are aware of the bare possibility to enforce the fugitive slave law ever since its adoption; has not the public mind progressed immensely of late, and is its doom less sealed than the positive endorsement of the other?

The proviso principle and an essential modification of the fugitive slave law are the material points now contended for. If public sentiment has advanced equal to five degrees in a circle, we believe the points will be won, notwithstanding any re-action probable, or that the dough-faces may manufacture to order.

We know very well that the cry of disunion, threats of civil war, yells of demagogues for "peace and submission," and a thousand little cunning tricks will be resorted to for effect in producing a re-action; that towards will submit, sham patriots whine and fatter, and that all the revenue artillery of the federal government is to be let off in a broadside to get up a re-action—restore to submission and then annex Cuba, erect a negro state in part of California, and re-open the slave trade, according to the present design.

To know of danger is to be prepared for it, and he able for the combat. We foresee the popular back-action works erecting for the future, but we shall be able to spare all from our ranks that the sham democracy are able to get, and then beat them as our fathers did Great Britain and the Tories combined.—*Id.*

NOT UP TO THE TIMES.—Some years since, a gentleman, a native of Concord, N. H., resident in Burlington, Iowa, received a letter from an old acquaintance, a young lawyer in New Hampshire, inquiring what the gentleman's views were of the feasibility for success in removing to Iowa, and there engaging in the practice of his profession. The gentleman replied to him, that he thought he would do as well to remain where he was; at the same time telling his neighbors in Burlington that he did not think the lawyer equal to the practice of the country. The lawyer's name was Franklin Pierce, now president of the United States. The gentleman's name, James W. Grimes, governor elect of the state of Iowa.—*Chicago Tribune.*

POOL PLAY.—Sometime in the month of June last, a German of considerable property, by the name of Von Teizer, living at Theresa, in this county, suddenly disappeared from his residence, living alone, and leaving every thing about him just as if he had merely gone out on an errand. Nothing more has since been seen or heard of him. Soon after his disappearance a family living near commenced appropriating his property to their own use. A few days since, a garment supposed to belong to the missing man was found, which led to the suspicion that he had been murdered. The community immediately commenced searching, but nothing more has been found. There is no reasonable doubt but he has been murdered. The persons in whose possession his effects were found have been arrested, and are now in jail to an indictment for larceny.—*Horicon Argus.*

A man can be a man of education without being drilled through college. It is far better to know the men among whom one lives, than to know men who have been dead three thousand years. If I am deficient in classic lore, I am pretty well booked up in the rascality of the age in which we live. It makes no odds how a man gets up to the roof of a house, whether he climbs up by a ladder, or goes up some other way. I would not barter away all the practical knowledge I have received in lumber and shipyards for all the Latin that was ever spoken in ancient Rome. I had rather speak sense in one plain and expressive language, than speak nonsense in fifty.—*Mike Walsh.*

Paper collars for gentlemen are about coming into fashion.

The know nothings have sworn off wearing any more Irish linen.—*Boston Atlas.*

THE THIRTY DAY BUILDING.—Mr. Mitchell has got his bank ready to enclose, and it may be that he will have his banking office in the old place in thirty days after the fire. One month will have expired on Thursday next, and before the fire was out, he said that he would be back again in thirty days.—*Wts.*

MADISON STONE.—We are gratified to learn that Henry J. Nazro & Co., have concluded to build the front of their massive store of Madison stone. This will be its first introduction here, and we believe that it is destined to be a favorite building stone. Mr. Nazro intends to have a store, which for its massiveness and appearance will be a species of state institution.—*Wisconsin.*

KNOW NOTHINGISM.—We learn indirectly from a reliable source that a know nothing society has been established at Kenosha, and that it is altogether more flourishing than any other organization in the State. It is said that it embraces the larger number of its best men.—*Racine Advertiser.*

It has been hinted to us that the Germans in Burlington in this county, have organized a know nothing society. We have also been informed that some of our own citizens of English birth have been united with the order which the Democrat says is in existence in this city.—*Id.*

QUICK WORK.—G. W. Boon, of Greenville, in this county, had his corn crop harvested, and laid down to wheat in just 14 weeks from the time the corn was planted. We don't believe that many farmers can be found who are so industrious.—*Appleton Crescent.*

PIGEONS.—We never knew these birds so plenty, in this vicinity, as they are this season. Hundreds and possibly thousands have been bagged by sportsmen during the past week, and the slaughter still continues.—*Platteville American.*

SQUIRRELS.—The woods in this vicinity are fairly alive with black squirrels, and the boys are having rare sport hunting. Raccoons are also more abundant, and of course more mischievous, than at any time within the memory of "white men." Coon hunts—night parties—are not unfrequent.—*Appleton Patriot.*

Mr. Rogers planted corn in this town on the 4th of July. It was perfectly ripe and ready for the mill on the 28th of September. The corn crop is very heavy throughout the county.—*Id.*

A "free fight" among the New York "finney" occurred on Thursday morning, in which Tom Iyer and Johnny Lung were the main actors.—A pistol was fired at the breast of Iyer, whose life was saved by a man named Lodier, throwing his arm before the muzzle of the weapon and receiving the ball in his arm. The affray grew out of an old grudge between the Iyer and Sullivan factions.

MESSRS. EDITORS.—There is at present considerable talk and gas expended in relation to the recent action of the citizens of Chicago in refusing to hear Mr. Douglas's defence. Now, I do not at all wish to be understood as sanctioning the action of the people of Chicago, in committing such an outrage. But I wish some of those loud-mouthed friends of Stephen Arnold Douglas would draw a comparison between the action of the bigots of Chicago, in refusing to hear Mr. Douglas, and that of the nullifiers—not in any city—but in the American congress, in refusing, and that upon a mere quibble, to hear Thomas H. Benton in opposition to the "Nebraska bill." Will some one favor us with a defence of the Nebraska men on that occasion? Yours, etc., ANTI-NEBRASKA.
